I drive a semi and my XM radio is the best investment I have made. I pay for the right to listen to what I want when I want. I do not know all the call letters to local stations when I am in an area away from my home base the new channels also allow me to get local information that is clear and accurate about possible problems I might encounter. Being alone in the truck for long periods of time can be very tiring and having a radio system that can stay with me while I go across the country has been like having someone in the truck with me. If I try to listen to local channels I lose them after a short period of time with XM I can listen to information, news, music, and talk shows for as long as I want. I do not feel the National Association of Broadcasters have a right to dictate what I listen too. Remember I AM PAYING FOR THE RIGHT TO LISTEN TO THE CHANNELS I WANT TO. I respectfully urge the FCC to reject the NAB's petition 04-160 I support XM radio's ability to provide the kind of programing the I want and deserve.
